Program Background

This report is the 2017 and 2018 review of the Incentive Award Program.¹ It contains a list of incentive awards agencies granted during fiscal years 2017 and 2018 with the corresponding savings to the state or improvements in the effectiveness of state government.

The Incentive Award Program recognizes and rewards individuals and teams of state employees as well as non-employees for innovations significantly contributing to efficiency in state government, the economy, or other improvements in state government. Agencies may present incentive awards in the form of money, paid leave or other forms of non-monetary recognition.

The program is a result of legislation enacted in 1993.² Each agency administers its own incentive award program. An agency head may choose to grant incentive awards and determine their monetary value. The general public may also submit ideas to improve government operations and become eligible to receive an incentive award.

Overview

No incentive awards were granted during fiscal year 2017.

The Department of Environmental Quality presented three, individual incentive program awards during fiscal year 2018. Two employees received cash awards, and one received a non-cash award. The Department of Environmental Quality documented an actual cash savings of \$34,160. Detailed information about the awards and actual savings follow.
